

Cincinnati Zoo and Devou Park Site Visit

Who are they?

Adults age around mid to late 30's

What are they doing?

Getting married

How long are they doing in?

Not exactly sure. Due to the limitaiotns of our visit there were many aspects to the park that we could explore in the main building. The surrounding site, however, as we investigated further concluded an empty park theatre. Occasionally, events would take place here where local business owners can coe and advertise their company to the communuity. Other events would include live musical entertainment where younger crowds come to relax. Alcohal is prohibited. Unless weddings are planned at the main building in advanced. We didn't see any kids there.

Gateways

Special Use/Activity Area

Devou Park was somewhat a dissapointment. A wedding was happening at the time of our visit and the people there would not let us enter the building. The most intresting and most successful aspect to our trip here was probably the park theatre. People would come, sit and relax as they would listen to occasinal live performances.
